This workshop is intended for Floodplain Managers and other partners from their communities that are interested learning more about the updates to the Community Rating System manual and the Biggert-Waters Act.

Representatives from Federal Emergency Management Agency, Mississippi Emergency Management Agency, Insurance Services Office, and Sea Grant will be:

- Reviewing recent changes to the Community Rating System (CRS) manual.
- Identifying ways for communities to maintain their current CRS points given recent changes to the manual.
- Explaining the Biggert Waters Act and what it means for premiums in local communities.
- Discussing the status of pending legislation associated with Biggert Waters Act.
- Sharing floodplain management communication challenges and identify strategies and tools to overcome these challenges.
